WELCOME MESSAGE

Dear esteemed colleagues and honored guests,

It is with great pleasure that I invite you to the international conference hosted by the Korean Society of Aesthetic Plastic Surgery (KSAPS). This event is scheduled to take place from April 19 (Saturday) to April 20 (Sunday), 2025. Starting this year, the name has changed from APS to APS KOREA, and the venue has moved from Gangnam to Yongsan in northern Seoul.

This year marks the 40th anniversary since the first conference was held in 1985. With a rich tradition of 40 years, APS KOREA is committed to continuously embracing new challenges rather than resting on its laurels. We sincerely welcome the innovative ideas and groundbreaking surgical techniques that you propose, as they will help us prioritize patient safety and achieve the best outcomes.

The APS KOREA 2025 conference will provide a platform for sharing your knowledge and experiences. We will also invite world-renowned plastic surgeons to give lectures, offering you the opportunity to enhance your theoretical understanding and surgical skills with confidence and innovation.

We look forward to continuing to challenge and innovate together with you at APS KOREA. I eagerly anticipate meeting you at APS KOREA 2025. Although it is just a two-day event, I hope it will be a meaningful occasion where doctors from around the world can share knowledge, skills, friendship, and understanding.

Finally, I would like to mention that many of Seoul's historical palaces are being restored to their former glory. I encourage you to enjoy the vibrant past, present, and future of Seoul, which continues to evolve each year.

Thank you.

Warmest Regards,

회장 Lee, Ik Jun

Chairman of the General Assembly, Korean Society for Aesthetic Plastic Surgery

A warm welcome to the APS KOREA 2025

I am delighted to announce the official APS KOREA 2025, our society's annual international academic conference, which will be held in April 2025. It is a great pleasure to share this news with all KSAPS members and our overseas colleagues in the field of aesthetic plastic surgery.

After several years of online-only events due to COVID-19, we successfully hosted APS 2023 and APS 2024 as in-person events, and both events were a great success. These events gave us the joy of meeting face-to-face and sharing ideas once again. This success has strengthened our belief that our APS is one of the most important platforms for plastic surgeons, not just in Korea, but across Asia, to showcase their skills and creativity.

For this upcoming conference, I am pleased to announce that it will be held at the Seoul Dragon City Hotel in Yongsan, a new and exciting area in Seoul. I am sure that everyone attending will have an amazing experience in this wonderful location.

The conference will cover a wide range of topics, including traditional surgical areas such as blepharoplasty, rhinoplasty, breast surgery, and facial contouring, as well as non-surgical topics like minimally invasive procedures, anti-aging, Botox, fillers, thread lifts, laser treatments, liposuction, and hair restoration. Our distinguished speakers will share their expertise and discuss these topics with participants, making this conference a great opportunity to learn and expand our horizons.

With great pleasure, I invite all KSAPS members and many international friends to join us for APS KOREA 2025. We look forward to sharing the latest in K-beauty and aesthetic surgery with you and hope you will have the chance to experience it with us.

이사장 Oh, Deuk Young

President, Korean Society for Aesthetic Plastic Surgery

Dear Members and Colleagues

We are pleased to invite you to the APS 2025 conference. A globally leading Aesthetic Surgery Congress will take place in Seoul from 19th to 20th of April 2025.

The APS continues to lead an aesthetic surgery field, introducing breakthrough innovations and techniques. We have prepared a diverse range of topics not only about every corner of the aesthetic practices including advancements in aesthetic surgery but also non-surgical aesthetic such as toxins, injectables, thread and lasers and invite distinguished plastic surgeons to share their invaluable insights through keynote speeches and live surgical demonstrations.

Our comprehensive workshops will offer an opportunity for the exchange of rich experiences and pioneering professional ideas. Together, we will explore new concepts in aesthetic plastic surgery and engage in meaningful discussions on pivotal topics.

In addition to academic events, the APS will offer a delightful social gathering including the Gala Dinner and pre-congress meeting, where you will have the opportunity to immerse yourself in the culture of Korea. April is a splendid time to visit, and we encourage you to explore the beauty and charm of Korea through taking a trip.

We extend a warm welcome and look forward to the honor of meeting you in Seoul.
